## 2. Qualification for the AWCF

- 2.1 The eight archers in each competition category that compete at the AWCF qualify through four pathways: AWCS stage winner, Olympic wildcard, host nation representative and AWCR.

A maximum of two athletes per nation may compete in each competition category. (Except if the Olympic wildcard and two other qualifiers come from the same country, in which case the maximum number will be three.)

Qualifying for the AWCF is done on an athlete basis and places are non-transferrable. (A nation may not replace a qualifying athlete with another athlete.)

### 2.2 **AWCS stage winner**

Athletes that win one AWCS automatically qualify for the AWCF.

If an athlete that has already won an AWCS wins another AWCS, no athlete qualifies from that second AWCS as stage winner.

If three athletes of the same country all win a stage, the limitation of two athletes from the same country will still apply with the two athletes ranked highest in the AWCR qualifying for the AWCF.

### 2.3 **Olympic wildcard**

In the year the Olympic Games are held, the winners of the Olympic Games will qualify for the AWCF as Olympic wildcards. Olympic wildcards are exempt from the limitation of two athletes per country.

If an Olympic wildcard wins an AWCS, no athlete qualifies from that AWCS as stage winner.

### 2.4 **Host nation representative**

The host nation of the AWCF may enter up to one athlete in each competition category if that nation has not already qualified two athletes in that competition category.

### 2.5 **AWCR**

The remaining places will be awarded based on AWCR after the last AWCS is staged.

If a country reaches the maximum number of athletes in a competition category, then the next eligible athlete in the AWCR will be selected.

If there is a tie in the AWCR, the following tiebreak procedure will be used:

- The athletes' position in the World Archery Rankings issued immediately after the last AWCS, and if the tie is still not resolved, then;
- The result of the last AWCS in which the athletes participated, and if the tie is still not resolved, then;
- A coin toss (real or electronic).

- 2.6 If a qualifying athlete is unable to participate or refuses their space at the AWCF, the next eligible athlete in the AWCR will be invited to compete.

A deadline for confirmation of participation will be established and published by World Archery, giving adequate time for the reallocation process.,

### 3. Hyundai Archery World Cup Final (AWCF)

- 3.1 The AWCF shall be held in September (please refer to World Archery calendar for final date and location). If, due to unforeseen events, only one AWCS is organised during the calendar year, the AWCF may be cancelled in which case no Archery World Cup circuit winner will be designated.
- 3.2 Qualified athletes and the Member Associations involved will be contacted by World Archery, to whom they will confirm their participation and agree with the participation conditions of the AWCF. After that, World Archery will officially confirm the participation and registration to this final event.
- 3.3 All athletes will comply with sponsoring and marketing requirements. For example, each athlete will have to include on their shirt an advertisement of two (2) World Archery Sponsors, which will be attached on site. Athletes will be asked to provide the shirt they will compete in upon arrival. Failure to comply with this requirement may result in the athlete forfeiting their entry for the competition.
- 3.4 Every athlete must bring two sets of uniform (t-shirts only) and may be required to change ahead of any given match. Both sets of uniforms must comply with World Archery rules but must be of distinctly different colours. One athlete will be required to change into their alternate uniform if the uniforms of both athletes in the match are the same colour; priority will be given to the higher-seeded athlete.
- 3.5 Single room, full board accommodation will be provided by the LOC at the official event hotel for athletes, who participate in the AWCF. Qualified athletes will be invited to arrive one (1) day prior the day of familiarisation and leave the day after their respective competition finishes. All local transportation will be provided by the LOC.
- 3.6 The roundtrip flight or journey to the AWCF location needs to be arranged and covered by the athlete (or their member association, sponsor or other benefactor). World Archery will not cover this cost.
- 3.7 All matches will follow the most recent edition of the *World Archery Rulebook*.
- 3.8 The top two athletes in the AWCR, for each category, will be placed at the two opposites ends on the bracket. The remaining athletes position will be decided by mean of a random draw. Athletes, will be paired following the outcome of the draw starting at the quarterfinal final stage, followed by the semi-finals and medal matches.
- 3.9 This draw will take place one day prior to familiarisation, may be produced for television and streaming and athletes are required to attend.
- 3.10 At the start of each gold/bronze medal match the highest ranked athlete, in the AWCR, has the decision to choose, one of the following options:
- A) Elect who is to shoot first to start the match
  - B) Which target to shoot at i.e. target 1 or target 2
- The lower ranked athlete decides the remaining option that the higher ranked athlete did not choose.

3.11 All matches may be televised live or included in full or edited format in television products.
