1.11 AWCR:

Athletes will be ranked for the AWCR on their three highest points totals at AWCS plus the combined total of bonus points across all AWCS.

2. Qualification for AWCF

2.1 Eight archers in each individual competition category will qualify for and compete at the AWCF.

A maximum of two athletes per nation may compete in each competition category, except if the Olympic wildcard causes a nation to exceed that number in which case the maximum will be three.

Qualification for the AWCF is done at athlete level and places are non-transferrable. (A nation may not replace a qualified athlete with another athlete.)

2.2 There are four qualification pathways to the AWCF: AWCS stage winner, Olympic wildcard, AWCR and host nation representative.

2.2.1 AWCS stage winner

An athlete who wins an individual event at an AWCS will automatically qualify for the AWCF.

If an athlete who has already won an AWCS wins another AWCS, no athlete qualifies from that subsequent AWCS as AWCS stage winner.

If three or more athletes of the same nation win a AWCS, the maximum of two athletes from the same nation will still apply. The two athletes ranked highest in the AWCR will qualify for the AWCF.

2.2.2 Olympic wildcard

In a year in which the Olympic Games are held, the winners of the individual events at the Olympic Games will qualify for the AWCF as Olympic wildcards.

Wildcards are exempt from the limitation of two athletes per nation.

If a wildcard wins an AWCS, no athlete qualifies from that AWCS as an AWCS stage winner.

2.2.3 **AWCR**

The athletes ranked highest in the AWCR after the last AWCS of the season qualify for the AWCF.

The number of places available through the AWCR is dependent on the number of athletes that qualify as AWCS stage winners or as Olympic wildcards and will bring the total number of qualified athletes to seven.

(For example, if four athletes qualify as AWCS stage winners and there is no wildcard, three places will be available through the AWCR; if one archer qualifies as an AWCS stage winner plus one wildcard, five places will be available through the AWCR.)

If a nation reaches the maximum number of athletes in any competition category, then the next eligible athlete in the AWCR will qualify instead.

If there is a tie in the AWCR, the following tiebreak procedure will be used:

- The athletes' position in the World Archery Rankings issued immediately after the last AWCS, and if the tie is still not resolved, then;
- The result of the last AWCS in which the athletes participated, and if the tie is still not resolved, then;
- A coin toss (real or electronic).

2.2.4 **Host nation representative**

The host nation of the AWCF may nominate one athlete to qualify in each competition category if that nation has not already qualified two athletes in that competition category as AWCS stage winners or through the AWCR.

2.3 Any empty place at the AWCF will be reallocated to the next eligible athlete in the AWCR. Confirmation deadlines will be established to give adequate time for the reallocation process.

3. **Hyundai Archery World Cup Final (AWCF)**

3.1 The AWCF shall be held in September (final date and location available in the World Archery calendar). If, due to unforeseen events, only one AWCS is organised during the calendar year, the AWCF may be cancelled in which case no Archery World Cup Champions will be designated.

3.2 Qualified athletes and the member associations involved will be contacted by World Archery for confirmation of their participation and acceptance of the participation conditions of the AWCF. World Archery will then officially confirm each athlete's registration for the AWCF.

3.3 Athletes must comply with sponsoring and marketing requirements. For example, each athlete will have to include on their shirt an advertisement of two (2) World Archery Sponsors, which will be attached on site. Athletes will be asked to provide the shirt they will compete in upon arrival. Failure to comply with this requirement may result in the athlete forfeiting their entry for the AWCF.

3.3.1 Athletes (and their coaches) competing in the same match must wear uniforms of differing predominant colours (t-shirt only). Each athlete and coach must have a second (alternate) uniform that is of a distinctly different colour to their main (primary) uniform and also complies with World Archery rules.

The higher seeded athlete will be given the choice of whether they or the lower-seeded athlete will wear their alternate uniform should a change be required.

- 3.4 Single room, full board accommodation will be provided by the LOC at the official event hotel for athletes, who participate in the AWCF. Qualified athletes will be invited to arrive one (1) day prior to the day of familiarisation and leave the day after their respective competition finishes. All local transportation will be provided by the LOC.
- 3.5 The roundtrip flight or journey to the AWCF location needs to be arranged and covered by the athlete (or their member association, sponsor or other benefactor). World Archery will not cover this cost.
- 3.6 All matches will follow the most recent edition of the *World Archery Rulebook*.
- 3.7 The top two athletes in the AWCR, for each category, will be placed at the two opposites ends on the bracket. The remaining athletes will be positioned in the brackets by means of a random draw. Athletes, will be paired following the outcome of the draw starting at the quarterfinal final stage, followed by the semifinals and medal matches.
- 3.8 The official draw will take place on the day of familiarisation, may be produced for television and streaming and athletes are required to attend.
- 3.9 All matches may be televised live or included in full or edited format in television products.
- 3.10 The finalised competition schedule and details of the AWCF will be communicated on www.worldarchery.sport and to the finalists two weeks before the start of the competition.

The expected date of payment will be **15 December 2023**, but World Archery reserves the right to alter this date.

Athletes are required to complete a prize money form for all the AWCS or AWCF in which they have won prize money. If a correct and complete form is not received by 1 December 2023, World Archery reserves the right to

withhold payment of the prize money. It is the responsibility of the athlete to provide their personal data by the deadline.
