world archery

Hyundai Indoor World Series Regulations & Requirements

Version 3.1 / July 2026

1. Preamble

This document sets out the competition regulations applicable to participants and the organisational requirements applicable to Local Organising Committees for events included in the 2027 Hyundai Indoor World Series.

The document is divided into two main parts:

- **Competition Regulations**, covering participation, competition formats, rankings, qualification and prizes.
- **Organiser Requirements**, covering the organisational, technical, operational, media, broadcast, branding and commercial standards applicable to each event level.

All Hyundai Indoor World Series events must comply with the World Archery Constitution and Rules.

As World Ranking Events, Hyundai Indoor World Series events must also comply with the applicable World Ranking Event Requirements, except where this document establishes a specific, additional or different requirement for the Hyundai Indoor World Series. Where there is any inconsistency between this document and the World Ranking Event Requirements, this document shall prevail for Hyundai Indoor World Series events. The World Archery Constitution and Rules shall always prevail.

Questions, requests for clarification and for approval related to these Regulations and Requirements must be submitted to **events@archery.sport**. World Archery will coordinate the request internally with the relevant department.

2. Document control

This document is owned and maintained by the World Archery Events Department. It was first published in June 2017.

The latest published version supersedes all previous versions.

Version	Publication Date	Owner
1.0	June 2017	World Archery Events Department
2.0	July 2022	World Archery Events Department
3.0	July 2026	World Archery Events Department
3.1	August 2026	World Archery Events Department

3. Introduction

3.1. Hyundai Indoor World Series

The Hyundai Indoor World Series is World Archery's international, open-entry, mass-participation circuit for 18-metre target archery.

The 2027 Hyundai Indoor World Series season begins in October 2026 and concludes in March 2027. In accordance with the established naming convention, the season is identified by the calendar year in which it begins.

The Hyundai Indoor World Series comprises three event levels:

- **Hyundai IWS 1000**
- **Hyundai IWS 500**
- **Hyundai IWS 250**

Each event level reflects the indicative scale of the event and determines the applicable minimum organisational and service standards, including venue, technical, operational, media, broadcast, branding and prize-money requirements.

The event level also determines the number of Hyundai Indoor World Series ranking points available to athletes.

3.2. Hyundai IWS Calendar

The 2027 Hyundai Indoor World Series comprises eight ranking events. The Hyundai Indoor World Series Finals will be held in conjunction with The Vegas Shoot but constitute a separate competition and are therefore listed separately.

Category	Name	Location	Dates
Hyundai IWS 250	Swiss Open Lausanne	Lausanne (SUI)	30 Oct-1 Nov 2026
Hyundai IWS 250	GT Open	Strassen (LUX)	20-22 Nov 2026
Hyundai IWS 250	Rio Indoor	Rio de Janeiro (BRA)	4-5 Dec 2026
Hyundai IWS 250	Singapore IWS	Singapore (SGP)	11-13 Dec 2026
Hyundai IWS 500	Rushmore Rumble	Indianapolis (USA)	08–10 Jan 2027
Hyundai IWS 1000	Nimes Archery 2027	Nimes (FRA)	14–17 Jan 2027
Hyundai IWS 500	Merida IWS	Merida (MEX)	12–14 Feb 2027
Hyundai IWS 1000	The Vegas Shoot	Las Vegas (USA)	11–14 Mar 2027
Hyundai IWS Finals	Hyundai IWS Finals	Las Vegas (USA)	14 Mar 2027

The calendar is subject to changes approved by World Archery. Any approved amendment will be communicated through the official World Archery channels.

4. Competition Regulations

4.1. Participation and eligibility

A. General eligibility

- Any athlete who is a member in good standing of a World Archery Member Association may participate in a Hyundai Indoor World Series event.
- Proof of a valid licence or membership of a World Archery Member Association may be required by World Archery or the Local Organising Committee.
- Each Member Association is responsible for ensuring that its athletes are valid registered members. A Member Association may object to the participation of an athlete who is not a valid member through OpenWAREOS.

B. Entry restrictions

- An athlete may compete in only one competition category at each Hyundai Indoor World Series event.
- Eligibility for the U21 and 50+ classes shall be determined in accordance with the World Archery Constitution and Rules.

C. Minimum participation

Hyundai Indoor World Series events must comply with the World Ranking Event requirement that athletes representing at least six Member Associations participate in the event.

D. Dress regulations and camouflage

Athletes and team officials must comply with the dress regulations established in the World Archery Constitution and Rules[I]. In particular:

- denim or jeans, regardless of colour, are not permitted on the field of play;
- camouflage clothing, footwear and equipment are not permitted;
- oversized or baggy trousers or shorts are not permitted;
- athletes and team officials must wear appropriate sports clothing and closed sports footwear on the field of play.

4.2. Competition format

A. General format

All Hyundai Indoor World Series events shall:

- be contested in indoor target archery;
- be shot at a distance of 18 metres;
- include a qualification round of at least 60 scoring arrows shot on a 40 cm target face;
- include a head-to-head matchplay or other elimination phase, unless an alternative competition format has been approved by World Archery.

[I] World Archery Rule Book 3, section 18.1.

B. Mandatory competition categories

The following competition categories must be offered at every Hyundai Indoor World Series event:

- **Recurve division**
    - Recurve Women (RW)
    - Recurve Men (RM)
    - Recurve Under 21 Women (RU21W)
    - Recurve Under 21 Men (RU21M)
    - Recurve 50+ Women (R50W)
    - Recurve 50+ Men (R50M)
- **Compound division**
    - Compound Women (CW)
    - Compound Men (CM)
    - Compound Under 21 Women (CU21W)
    - Compound Under 21 Men (CU21M)
    - Compound 50+ Women (C50W)
    - Compound 50+ Men (C50M)
- **Additional competition categories**

A Local Organising Committee may propose additional competition categories based on anticipated participation and the scale of the event.

Any additional category must:

- comply with the World Archery Constitution and Rules;
- be approved by World Archery;
- be clearly identified in the Invitation Package and registration information;
- not affect the delivery of the mandatory categories.

C. Correspondence between registration categories and Hyundai IWS rankings

Where an event uses registration-category names that differ from the standard Hyundai IWS categories, the LOC must clearly identify which category corresponds to each applicable Hyundai IWS category and ranking.

Only athletes registered in the applicable Elite/Championship/Professional or equivalent main competition category may receive Hyundai IWS ranking points. Athletes registered in flight, secondary or other non-championship categories are not eligible to receive Hyundai IWS ranking points.

The correspondence between the event registration categories, the applicable Hyundai IWS categories and the Elite or Youth Ranking must be clearly stated in the registration system, the Invitation Package and all relevant participant information. This information must be clearly visible before an athlete completes registration and must be submitted to World Archery for approval before registration opens.

D. Alternative competition formats

A Local Organising Committee may propose an alternative competition format for the qualification round, the elimination phase or both.

Any proposed alternative format must:

- comply with the World Archery Constitution and Rules;
- be submitted to World Archery for approval before publication of the Invitation Package;
- clearly define the competition structure, progression criteria, final classification and applicable tie-breaking procedures;
- identify how the results will be used to allocate Hyundai IWS ranking points;
- be clearly communicated to participants in the Invitation Package and registration information.

An alternative competition format may only be implemented following written approval from World Archery.

E. Second Chance Tournament

A Second Chance Tournament provides an additional competition opportunity for athletes who do not qualify for the main elimination phase.

The Second Chance Tournament is:

- required for Hyundai IWS 1000 events;
- optional for Hyundai IWS 500 events;
- optional for Hyundai IWS 250 events.

The Local Organising Committee may determine the format according to the number of eligible athletes and the available competition time.

A 15-arrow cumulative-score competition is recommended. Athletes may be separated by division, class or competition category when participation numbers justify separate competitions.

The format and eligibility criteria must be published before the start of the event.

4.3. Hyundai Indoor World Series rankings

A. General principles

World Archery will maintain two individual Hyundai Indoor World Series rankings:

- **the Hyundai IWS Elite Ranking;**
- **the Hyundai IWS Youth Ranking.**

Ranking points are awarded according to:

- the level of each Hyundai Indoor World Series event;
- the athlete's final placing at that event;
- the points allocation table in Section 4.3.D.

An athlete's ranking total consists of the points obtained from their best three eligible results during the season.

B. Hyundai IWS Elite Ranking

The Hyundai IWS Elite Ranking applies to:

- Recurve Women (RW);
- Recurve Men (RM);
- Compound Women (CW);
- Compound Men (CM).

The Hyundai IWS Elite Ranking follows these principles:

- For The Vegas Shoot, Elite Ranking points will be awarded according to the athlete's position after the first 60 scoring arrows of the qualification competition.
- The Hyundai IWS Elite Ranking determines qualification and seeding for the Hyundai Indoor World Series Finals.
- The 16 highest-ranked eligible athletes in each of the four competition categories qualify for the Hyundai Indoor World Series Finals, subject to the participation requirements set out in Section 4.4.B.

C. Hyundai IWS Youth Ranking

The Hyundai IWS Youth Ranking applies to:

- Recurve Under 21 Women (RU21W);
- Recurve Under 21 Men (RU21M);
- Compound Under 21 Women (CU21W);
- Compound Under 21 Men (CU21M).

The Hyundai IWS Youth Ranking follows these principles:

- Only athletes entered in an eligible U21 competition category may receive Hyundai IWS Youth Ranking points.
- An athlete must have at least three eligible results to be considered in the final Hyundai IWS Youth Ranking.
- An athlete who is eligible for the U21 class but enters Recurve Women, Recurve Men, Compound Women or Compound Men will be eligible only for the Hyundai IWS Elite Ranking at that event.
- Each Hyundai Indoor World Series event awards Youth Ranking points according to its event level and the athlete's final placing in the relevant U21 competition category.
- For The Vegas Shoot, Youth Ranking points will be awarded according to the final classification of the applicable U21 competition.
- The Hyundai IWS Youth Ranking determines the final seasonal classification and the athletes eligible for the Youth Ranking prize money described in Section 4.5.C.

D. Ranking points allocation

The following table sets out the distribution of ranking points to be awarded to the athletes participating in the Hyundai IWS events.

Position	Hyundai Indoor World Series 1000	Hyundai Indoor World Series 500	Hyundai Indoor World Series 250
1st	1000 Points	700 Points	400 Points
2nd	800 Points	560 Points	320 Points
3rd	680 Points	480 Points	270 Points
4th	580 Points	410 Points	230 Points
5th	500 Points	350 Points	200 Points
6th	430 Points	300 Points	170 Points
7th	370 Points	260 Points	150 Points
8th	320 Points	220 Points	130 Points
9th	275 Points	195 Points	115 Points
10th	255 Points	180 Points	105 Points
11th	235 Points	165 Points	95 Points
12th	215 Points	150 Points	85 Points
13th	195 Points	135 Points	75 Points

14th	175 Points	120 Points	65 Points
15th	155 Points	105 Points	55 Points
16th	140 Points	95 Points	45 Points
17th	125 Points	85 Points	-
18th	115 Points	78 Points	-
19th	105 Points	71 Points	-
20th	95 Points	64 Points	-
21st	85 Points	57 Points	-
22nd	75 Points	50 Points	-
23rd	67 Points	44 Points	-
24th	59 Points	38 Points	-
25th	51 Points	32 Points	-
26th	43 Points	26 Points	-
27th	36 Points	20 Points	-
28th	30 Points	15 Points	-
29th	24 Points	11 Points	-
30th	18 Points	7 Points	-
31st	13 Points	4 Points	-
32nd	9 Points	2 Points	-
33rd & 34th	8 Points	-	-
35th & 36th	7 Points	-	-
37th & 38th	6 Points	-	-
39th & 40th	5 Points	-	-
41st & 42nd	4 Points	-	-
43rd & 44th	3 Points	-	-
45th & 46th	2 Points	-	-
47th to 64th	1 Point	-	-

4.4. Hyundai Indoor World Series Finals

A. General provisions

The Hyundai Indoor World Series Finals will be held in Las Vegas, United States, on Sunday, 14 March 2027.

The following competition categories are included:

- Recurve Women (RW);
- Recurve Men (RM);
- Compound Women (CW);
- Compound Men (CM).

A maximum of 16 athletes will compete in each category.

B. Eligibility

To be eligible for the Hyundai Indoor World Series Finals, an athlete must compete in:

- at least two Hyundai Indoor World Series events other than The Vegas Shoot; and
- The Vegas Shoot.

An athlete must therefore participate in at least three Hyundai Indoor World Series ranking events during the season.

Participation in The Vegas Shoot is mandatory for qualification, but The Vegas Shoot result does not necessarily have to be included among the athlete's three highest ranking-point results.

C. Qualification and seeding

Qualification will be determined using the Hyundai IWS Elite Ranking calculated immediately after completion of the first 60 scoring arrows at The Vegas Shoot.

The 16 highest-ranked eligible athletes in each competition category will qualify for the Hyundai Indoor World Series Finals.

Athletes will be seeded from 1 to 16 according to the final Hyundai IWS Elite Ranking

D. Tie-Breaking Rules to determine the qualification and seeding

Ties between athletes ranked from positions 1 to 15 will be resolved through an electronic random draw conducted by World Archery for the purpose of determining seeding.

A tie affecting 16th position, and therefore qualification for the Hyundai Indoor World Series Finals, will be resolved in the following order:

1. the higher position after the first 60 scoring arrows at The Vegas Shoot;
2. the highest single-event ranking-point result achieved at a Hyundai IWS 1000 event;
3. the highest single-event ranking-point result achieved at a Hyundai IWS 500 event;
4. the highest single-event ranking-point result achieved at a Hyundai IWS 250 event;
5. if the athletes remain tied, a shoot-off held at The Vegas Shoot.

The shoot-off will be conducted on a 40 cm triangular triple target face. Each athlete will shoot one arrow and the arrow closest to the centre will determine qualification. If the athletes remain tied, additional single-arrow shoot-offs will be conducted until the tie is resolved.

E. Competition format

The Hyundai Indoor World Series Finals will use a standard 16-athlete individual elimination bracket, with athletes seeded from 1 to 16.

- **Recurve**
  - Matches will be decided using the set system.
  - Each match will consist of up to five sets of three arrows.
  - The first athlete to reach six set points will win the match.
  - Alternate shooting, with 20 seconds per arrow, will be used for gold medal matches.
- **Compound**
  - Matches will be decided using cumulative scoring.
  - Each match will consist of five ends of three arrows, for a total of 15 arrows.
  - The athlete with the highest cumulative score will win the match.
  - Alternate shooting, with 20 seconds per arrow, will be used for gold medal matches.
  - The inner 10-ring, or X-ring, will score 10 points and the recurve 10-ring will score nine points.

Ties in matches will be resolved in accordance with the World Archery Constitution and Rules.

4.5. Prizes

A. Prize money awarded at Hyundai Indoor World Series events

The prize-money requirements apply to:

- Recurve Women (RW);
- Recurve Men (RM);
- Compound Women (CW);
- Compound Men (CM).

Each Local Organising Committee shall provide a minimum prize fund according to the applicable event level.

HYUNDAI IWS 1000

- **Minimum prize for each category winner:** 5,000 USD.
- **Minimum number of prize-winning athletes per category:** Top 5.
- **Minimum aggregate prize fund:** 40,000 USD.

HYUNDAI IWS 500

- **Minimum prize for each category winner:** 2,000 USD.
- **Minimum number of prize-winning athletes per category:** Top 5.
- **Minimum aggregate prize fund:** 20,000 USD.

HYUNDAI IWS 250

- **Minimum prize for each category winner:** 1,000 USD.
- **Minimum number of prize-winning athletes per category:** Top 5.
- **Minimum aggregate prize fund:** 10,000 USD.

The detailed distribution of the prize fund among second to fifth place may be determined by the Local Organising Committee, provided that:

- the minimum winner's prize is respected;
- prize money is awarded to the top five athletes in each of the four categories;
- the applicable minimum aggregate prize fund is respected;
- the complete prize-money distribution is published in the Invitation Package.

A LOC may award additional prize money or prizes in other competition categories.

B. Hyundai Indoor World Series Finals prize money

At the conclusion of the Hyundai Indoor World Series Finals, World Archery will award the following prize money in each category:

- 1st place: **5,000 CHF**
- 2nd place: **2,500 CHF**
- 3rd place: **1,500 CHF**
- 4th place: **1,000 CHF**
- 5th place: **500 CHF**

C. Hyundai Indoor World Series Youth ranking prize money

At the conclusion of the season, World Archery will award the following prize money in each category of the Hyundai IWS Youth Ranking:

- 1st place: **1,500 CHF**

- 2nd place: **1,000 CHF**
- 3rd place: **750 CHF**

- **Tie-Breaking Rules to determine final ranking in the Hyundai IWS Youth Ranking**

Ties in the Hyundai IWS Youth Ranking at the conclusion of the Hyundai IWS will be resolved as follows:

- Ties affecting a prize-money position will be resolved, in order, by applying the following criteria:
  - the highest single-event ranking-points result achieved at a Hyundai IWS 1000 event;
  - the highest single-event ranking-points result achieved at a Hyundai IWS 500 event;
  - the highest single-event ranking-points result achieved at a Hyundai IWS 250 event;
  - Where two or more athletes are tied in a prize-money position, the prize money allocated to the positions occupied by the tied athletes will be combined and divided equally among them.
- Ties that do not affect a prize-money position may remain unbroken or be resolved through an electronic random draw for publication purposes.

5. Organiser Requirements

The requirements contained in this section apply to the Local Organising Committees of all Hyundai Indoor World Series events.

Requirements identified for a specific event level apply in addition to the general requirements established for all Hyundai Indoor World Series events.

Where an item is described as optional, it remains subject to the LOC decision.

Any exception or alternative solution for mandatory requirements must be approved in writing by World Archery before implementation.

A. Overview of requirements by event level

This table summarises the principal requirements that differ according to the event level. All general requirements remain applicable, and the detailed provisions contained in the corresponding sections shall prevail in the event of any inconsistency.

Requirement	Hyundai IWS 1000	Hyundai IWS 500	Hyundai IWS 250	Section
General requirements				
Indicative participation	1,000+ athletes	500+ athletes	250+ athletes	5.2
Staging fee	CHF 15,000	CHF 11,000	CHF 7,000	5.2
Venue Requirements				
Dedicated practice range	Required: min. 20 target butts	Required: min. 12 target butts	Optional	5.3
Qualification field	Min. 64 target butts	Min. 48 target butts	Min. 32 target butts	
Finals field	Purpose-built or fully transformed dedicated arena	Specifically reconfigured dedicated finals arena	Clearly defined and branded finals field	
Spectator capacity	Min. 2,000	Min. 500	Optional	
Exhibition area	Required	Optional	Optional	
Try archery	Required	Optional	Optional	
Second Chance Tournament	Required	Optional but recommended	Optional but recommended	4.2.D
Prizes				
Minimum prize for each winner	USD 5,000	USD 2,000	USD 1,000	4.5
Minimum prize fund	USD 40,000	USD 20,000	USD 10,000	4.5
Prize-winning athletes	Top five in RW, RM, CW and CM	Top five in RW, RM, CW and CM	Top five in RW, RM, CW and CM	4.5
Technical staff and officials				
WA-appointed technical officials	TD, Results Verifier, Judge Commission Chairperson and ≥2 WA International Judges	TD, Results Verifier, Judge Commission Chairperson and 1 WA International Judge	TD, Results Verifier and Judge Commission Chairperson	5.5

LOC-appointed officials	DOS and min. 5 additional judges	DOS and min. 3 additional judges	DOS and min. 3 additional judges	5.5
Doping control				
Minimum anti-doping tests	Eight	Six	Four	5.6
Media & Broadcasting				
Video production	Six-camera broadcast-quality production in 1080p50/60	Three-camera broadcast-quality production in 1080p50/60	Three-camera broadcast-quality production in 1080p50/60	5.7
Photography	Min. 60 photographs per competition day	Min. 60 photographs per competition day	Min. 100 photographs over the event	5.7
Sponsorship & Branding				
Event logo	Required	Required	Development by the LOC optional; WA may provide the event identity	5.8
Hyundai floor logo	Required	Required	Required	5.8
Additional Hyundai visibility	Extensive branding on qualification and finals fields	Prominent branding on qualification and finals fields	Minimum required branding on qualification and finals fields	5.8
Hyundai acknowledgement and activations	Audio acknowledgement required; additional activations may apply	Audio acknowledgement required; proportionate activations may be agreed	Audio acknowledgement required; proportionate activations may be agreed	5.8
Hyundai VIP accreditations	Up to 10			5.8
World Archery contribution	CHF 12,000	CHF 8,000	CHF 4,000	5.8

B. Key preparation timeline

This table provides a consolidated overview of the principal preparation deadlines. It does not replace the detailed provisions of these Regulations and Requirements, the World Archery Constitution and Rules or the applicable World Ranking Event Requirements. In the event of any inconsistency, the detailed provisions and the applicable World Archery regulations shall prevail.

Action	Deadline	Responsible	Section / Ref.
Complete the WRE application and request registration in the World Archery calendar	≥ 6 months before competition	LOC	5.1 RB2[II] WRE[III]

[II] World Archery Constitution and Rules, Book 2.
[III] World Ranking Event Requirements.

Submit the draft Invitation Package for World Archery review and approval	Before the 6-month publication deadline	LOC	5.1
Publish the World Archery-approved Invitation Package	≥ 6 months before competition	LOC	5.1 RB2 WRE
Submit for approval and publish the correspondence between event registration categories, Hyundai IWS categories and applicable rankings	Before registration opens	LOC	4.2.B
Agree the finals and broadcast schedule	≥ 3 months before competition	LOC / WA	5.4.A
Submit the media, photography and video-production plan	≥ 3 months before competition	LOC	5.7
Confirm the results-management model, personnel, equipment and any WA service	≥ 3 months before competition	LOC / WA	5.4.B
Submit the sponsorship, branding and activation plan	≥ 2 months before competition	LOC	5.8.E
Submit the detailed competition schedule, version 0.1	≥ 3 weeks before competition	LOC	5.4.A
Publish the approved competition schedule, version 1.0	≥ 1 week before competition	LOC	5.4.A
Provide the Hyundai guest list, where applicable	≥ 1 week before competition	WA / Hyundai	5.8.C
Complete the IANSEO configuration and submit initial target assignments for verification	Before publication of official start lists	LOC	5.4.B
Test results systems, electronic scoring, networks and internet connections	Before official practice	LOC	5.4.B
Complete streaming or broadcast setup and technical tests	Before the first broadcast session	LOC	5.7
Provide the complete competition dataset to World Archery	≤ 2 hours after the final match	LOC	5.4.B
Submit the Hyundai post-event implementation report	Deadline set by WA after the event	LOC	5.8.D

5.1. World Ranking Event status and application

A. World Ranking Event status

All Hyundai Indoor World Series events hold World Ranking Event status.

Local Organising Committees must comply with the latest applicable version of the World Ranking Event Requirements, except where these Hyundai Indoor World Series Regulations and Requirements establish a specific, additional or different provision.

The latest WRE requirements can be found in this link.

B. Application and approval

The LOC must comply with the application, approval and publication timelines established in the World Archery Constitution and Rules and in the applicable World Ranking Event Requirements.

As a general rule, the World Ranking Event application and calendar registration must be completed, and the approved Invitation Package published, no later than six months before the first day of competition.

The registration form can be completed in the following link.

Following approval, World Archery will activate the event in OpenWAREOS and provide the LOC with access to the applicable event-management resources.

The draft Invitation Package must be submitted to World Archery sufficiently in advance to allow its review, amendment and approval before the applicable publication deadline.

Further details are provided in the applicable provisions of the World Archery Constitution and Rules, Book 2, and in the World Ranking Event Requirements, including the relevant application and event-preparation process.

The Local Organising Committee may not publish the Invitation Package until it has been approved by World Archery.

5.2. General requirements

The event levels indicate the anticipated scale of each Hyundai Indoor World Series event. The indicative participation figures are planning references and do not constitute minimum participation thresholds or guarantees.

HYUNDAI IWS 1000

- **Indicative participation level:** 1000+ athletes.
- **Staging fee:** 15,000 CHF – Including the applicable World Ranking Event staging fee.

HYUNDAI IWS 500

- **Indicative participation level:** 500+ athletes.
- **Staging fee:** 11,000 CHF – Including the applicable World Ranking Event staging fee.

HYUNDAI IWS 250

- **Indicative participation level:** 250+ athletes.
- **Staging fee:** 7,000 CHF – Including the applicable World Ranking Event staging fee.

All athlete registrations must be managed through OpenWAREOS[IV].

The staging fee shall be invoiced by World Archery and paid in accordance with the conditions and deadline communicated to the Local Organising Committee in the Organisers Agreement.

5.3. Venue requirements

A. General venue requirements

All Hyundai Indoor World Series events must be held in a suitable indoor venue, such as a permanent sports hall, exhibition hall or comparable indoor facility.

The venue must provide:

[IV] **Note:** Exceptionally, World Archery may approve a different registration arrangement for a specific event where justified by the established event structure, provided that athlete data, membership verification, results operations and ranking-point allocation can be managed in full compliance with World Archery requirements

- an 18-metre competition field complying with the World Archery Constitution and Rules;
- sufficient space behind the shooting line for athletes, equipment, officials and operational personnel;
- the shooting, media, waiting and equipment lines required under the World Archery Constitution and Rules;
- a suitable backstop, safety wall or arrow-stop netting capable of safely stopping arrows that miss or pass through the target butts;
- a minimum shooting space of 80 cm per athlete on the shooting line;
- suitable lighting across the shooting line, target line and operational areas;
- appropriate heating, ventilation and temperature control;
- safe and unobstructed circulation routes, emergency exits and access-control measures;
- sufficient operational space for athletes, officials, staff, media and spectators.

All event levels must provide a dedicated finals field for alternate-shooting matches. The finals field may be created by reconfiguring the qualification field, provided that it is clearly separated from other event operations during the finals session.

The finals field must provide appropriate positions for broadcast personnel and equipment, photographers and winner interviews.

The layout of the venue and field of play must be approved by the World Archery Technical Delegate assigned to each event.

B. Specific venue requirements according to the event level

HYUNDAI IWS 1000

- **Practice range:** required, with a minimum of 20 target butts.
- **Qualification field**: minimum of 64 target butts.
- **Finals venue:**
    - purpose-built or fully transformed into a dedicated and professionally branded arena;
    - full sports presentation, including music, on-venue announcing and coordinated athlete presentation;
    - video wall or projection system in 16:9 format, with a minimum dimension of three metres on its shortest side;
    - presentation of at least the gold medal matches in Recurve Women, Recurve Men, Compound Women and Compound Men, one at a time;
    - compliance with the applicable broadcast-production requirements.
- **Spectator seating:** required, with a minimum capacity of 2,000 spectators.
- **Exhibition area:** required.
- **Try archery activity:** required.
- **Second chance tournament:** required, in accordance with Section 4.2.D.

HYUNDAI IWS 500

- **Practice range:** required, with a minimum of 12 target butts.
- **Qualification field:** minimum of 48 target butts.
- **Finals field:**
    - specifically reconfigured as a dedicated finals arena;
    - professionally branded;
    - sports presentation, music and on-venue announcing;

  - presentation of at least the gold medal matches in Recurve Women, Recurve Men, Compound Women and Compound Men, one at a time;
  - compliance with the applicable production requirements.

- **Spectator seating:** required, with a minimum capacity of 500 spectators.
- **Exhibition area:** optional.
- **Try archery activity:** optional.
- **Second chance tournament:** optional but recommended, in accordance with Section 4.2.D.

HYUNDAI IWS 250

- **Practice range:** optional.
- **Qualification field:** minimum of 32 target butts.
- **Finals field:**
  - clearly defined and branded;
  - music and on-venue announcing;
  - presentation of at least the gold medal matches in Recurve Women, Recurve Men, Compound Women and Compound Men, one at a time.
- **Spectator seating:** optional
- **Exhibition area:** optional.
- **Try archery:** optional.
- **Second chance tournament:** optional but recommended, in accordance with Section 4.2.D.

5.4. Technical requirements

A. Rules and technical operation

All Hyundai Indoor World Series events must comply with the latest version of the World Archery Constitution and Rules in force at the time of the event, in particular Books 2 and 3 and any applicable interpretations.

- **Competition schedule:**
  - A preliminary competition schedule must be included in the Invitation Package.
  - The detailed competition schedule, version 0.1, must be prepared by the LOC Competition Manager in coordination with the World Archery Technical Delegate and Results Verifier.
  - The detailed schedule must be submitted to the Technical Delegate and Results Verifier no later than three weeks before the first day of competition.
  - The finals and broadcast schedule must be agreed with World Archery no later than three months before the first day of competition.
  - The final competition schedule, version 1.0, must be approved by the Technical Delegate and published no later than one week before the first day of competition.
  - Any subsequent change must be approved by the Technical Delegate and Results Verifier and communicated promptly to all affected participants and officials.
- **Target Faces:**
  - Only target faces produced by a manufacturer licensed by World Archery may be used.

- World Archery licensed 40 cm triple target faces must be used for the qualification and elimination phases.
- Recurve categories must use the applicable 40 cm-R target face.
- Compound categories must use the applicable 40 cm-C target face, without the recurve 10-ring.
- Triangular triple target faces are mandatory for televised finals and recommended for qualification and elimination phases.
- Vertical triple target faces may be used during qualification and elimination phases, subject to approval by the Technical Delegate.
- The current list of licensed target-face manufacturers is available through World Archery.

- **Target butts:**
  - Only foam target butts may be used. They must be suitable for indoor archery and provide consistent stopping performance.
  - Target butts and their supports must be safely and securely installed.
  - The Technical Delegate may require the replacement or reinforcement of any target butt that does not provide adequate stopping performance or presents a safety risk.

- **Field-of-play marking and signage:**

The field of play must include all markings, numbers and signage required under the World Archery Constitution and Rules, including:

- target numbers;
- shooting-position or lane numbers;
- shooting line;
- three-metre line;
- media line, where applicable;
- waiting line;
- equipment line;
- athlete and official access points;
- any additional safety or operational markings required by the Technical Delegate.

- **Timing and signals:**

The LOC must provide:

- an electronic timing system complying with the World Archery Constitution and Rules;
- timing displays clearly visible to athletes and officials;
- the required audible shooting signals;
- a suitable backup timing and signalling system;
- trained personnel responsible for operating the system.

The timing and signalling systems must be tested and approved by the Director of Shooting and Technical Delegate before the start of competition.

- **Score displays:**

Manual or electronic score displays must be provided as follows:

- **Qualification:** score displays for athletes are optional. When provided, they must be capable of displaying a three-digit cumulative score.
- **Elimination and finals:** score displays are required.

- For compound matches, one score display must be available for each athlete and must show the cumulative match score.
- For recurve matches, the score displays must clearly show the set points of both athletes.

Score displays must be visible to athletes, officials, spectators and, where applicable, broadcast cameras.

B. Results management and technology

The LOC is responsible for providing an experienced Results Manager and sufficient personnel to operate the results service throughout the event.

The LOC may request World Archery to provide the Results Manager or a broader results-management service. Any such service:

- is subject to the availability of suitable World Archery personnel;
- must be requested and agreed sufficiently in advance;
- is not included in the staging fee;
- will be charged separately to the LOC based on a budget provided by World Archery.

Where World Archery provides the Results Manager or a results-management service, the LOC remains responsible for providing the necessary local personnel, equipment, working spaces, electrical power, internet connectivity and operational support.

- **Results Management System**

The results operation must:

- use IANSEO as the official results-management system;
- comply with the applicable Olympic Results and Information Services standards;
- collect the value of each individual arrow electronically;
- provide a live results-data feed to World Archery;
- be configured and operated in coordination with the World Archery Results Verifier;
- ensure the correct transfer and verification of athlete registration data from OpenWAREOS or, where an exceptional registration arrangement has been expressly approved by World Archery, from the applicable registration source;
- accurately manage athlete data, competition categories, the competition schedule, target assignments, start lists, elimination brackets and results;
- publish start lists, target assignments, brackets and official results through the platforms indicated by World Archery;
- support the identification, verification and processing of potential world records;
- maintain secure and regular backups of all competition data;
- provide the World Archery Results Verifier and Technical Delegate with access to all information required to perform their duties;
- produce and submit the final results documentation required by World Archery;
- provide the complete competition data set to World Archery within two hours of the conclusion of the final match.

The LOC must provide:

- suitable computers and all other hardware required to operate IANSEO;
- sufficient printers, printing supplies and paper;
- stable electrical power and appropriate backup solutions;
- a stable and dedicated internet connection for the results operation;

- an appropriate local network for the results system and electronic scoring devices, where applicable;
- suitable working spaces for the Results Manager, Results Verifier and results operators;
- technical support throughout all official practice and competition sessions.

Electronic scoring devices must be used in conjunction with IANSEO and paper scorecards. The devices, local network and data-transfer process must be fully tested before the start of competition.

Unless otherwise agreed with World Archery, a scanned copy of all scorecards must be provided to World Archery at the end of each competition session.

Paper scorecards and a suitable backup results-entry procedure must remain available in the event of a technical, network or power failure.

The IANSEO configuration, competition structure, athlete data and initial target assignments must be reviewed by the Results Verifier before publication of the official start lists.

- **Internet connectivity**

The LOC must provide a minimum of three dedicated and separate wired internet connections for event operations.

The connection reserved for the IANSEO results operation and publication of live results must:

- provide a guaranteed minimum symmetrical bandwidth of 30 Mbps upload and download;
- be unfiltered;
- be available through a wired Ethernet connection at the results position;
- not be shared with public, spectator or venue Wi-Fi;
- be protected from unauthorised access.

The remaining connections must be available for other World Archery operational requirements and, where applicable, streaming or television-production needs.

The LOC must also provide an independent backup internet solution that can be activated immediately in the event of failure of the primary connection. The backup solution must provide sufficient capacity to maintain the IANSEO results operation and publication of live results.

All primary and backup connections must be fully tested before the start of official practice and approved by the Results Manager and Results Verifier.

5.5. Technical staff and officials

To ensure compliance with the World Archery Constitution and Rules and these Regulations and Requirements, the following technical staff and officials must be appointed.

A. General provisions

For all event levels, the LOC must provide:

- a Competition Manager;
- a Results Manager and sufficient results operators, either appointed directly by the LOC or provided by World Archery under a separately agreed and budgeted service;
- an appropriately staffed field crew;
- any additional personnel required by the Technical Delegate according to the size, format and operational needs of the event.

B. Specific requirements according to the event level

The following minimum appointment requirements apply according to the event level:

HYUNDAI IWS 1000

- **Appointed by World Archery:**
  - Technical Delegate;
  - Results Verifier;
  - Chairperson of the Tournament Judge Commission;
  - Two or more additional World Archery International Judges, depending on the number of entries, competition format and field-of-play configuration.
- **Appointed by the LOC in cooperation with the host Member Association:**
  - Director of Shooting;
  - a minimum of five additional judges with the final number determined according to the number of entries, number of target butts, competition schedule and field-of-play configuration.

HYUNDAI IWS 500

- **Appointed by World Archery:**
  - Technical Delegate;
  - Results Verifier;
  - Chairperson of the Tournament Judge Commission;
  - one additional World Archery International Judge.
- **Appointed by the LOC in cooperation with the host Member Association:**
  - Director of Shooting;
  - a minimum of three additional judges with the final number determined according to the number of entries, number of target butts, competition schedule and field-of-play configuration.

HYUNDAI IWS 250

- **Appointed by World Archery:**
  - Technical Delegate;
  - Results Verifier;
  - Chairperson of the Tournament Judge Commission.
- **Appointed by the LOC in cooperation with the host Member Association:**
  - Director of Shooting;
  - a minimum of three additional judges with the final number determined according to the number of entries, number of target butts, competition schedule and field-of-play configuration.

C. Additional considerations

The final composition and number of judges must be approved by the World Archery Technical Delegate and the Chairperson of the Tournament Judge Commission.

The LOC must ensure that all locally appointed judges and technical officials hold the qualifications required under the World Archery Constitution and Rules and the regulations of the host Member Association.

A Jury of Appeal must be appointed before the start of competition in accordance with the World Archery Constitution and Rules.

The specific logistical arrangements and travel dates for World Archery-appointed personnel will be communicated to the LOC sufficiently in advance of the event.

D. Financial and logistical responsibilities

- **Technical officials and staff appointed by World Archery:**
    - World Archery will coordinate and cover the international travel arrangements of the technical officials and staff it appoints, unless otherwise established in the applicable event agreement;
    - the LOC must provide and cover, in accordance with the conditions established in the applicable event agreement:
        - accommodation;
        - local transport, including transfers between the airport or railway station, official accommodation and competition venues;
        - meals during the officials' official stay and working periods;
        - accreditation, working conditions, access, equipment and operational support.
- **Judges, officials and technical staff appointed by the LOC:**
    - The LOC is responsible for all associated appointment, travel, accommodation, local transport, meals and operational costs, unless otherwise agreed in writing with World Archery.

5.6. Doping control requirements

A. General provisions

All Hyundai Indoor World Series events are subject to the World Archery Anti-Doping Rules and the applicable procedures of the International Testing Agency.

World Archery will coordinate the testing programme with the International Testing Agency, including:

- the number, type and distribution of tests;
- the testing days and competition sessions;
- the appointment of Doping Control Officers and other Sample Collection Personnel;
- the transportation and analysis of samples.

World Archery will cover the direct costs of the testing services coordinated through the International Testing Agency.

The LOC must appoint an Anti-Doping Coordinator to act as the main liaison with World Archery, the International Testing Agency and the Sample Collection Personnel.

The LOC must also provide the number of appropriately trained and accredited chaperones requested by World Archery or the International Testing Agency.

B. LOC responsibilities

At its own cost, the LOC must:

- provide a suitable Doping Control Station in accordance with the requirements communicated by the International Testing Agency;
- provide the requested chaperones and local support personnel;
- provide accreditation and appropriate access for Doping Control Officers and other authorised personnel;
- provide any facilities, equipment, refreshments, local transport, interpretation and operational support requested by the International Testing Agency;
- ensure that all doping control facilities and arrangements are ready for inspection before testing begins;
- follow all instructions issued by World Archery, the International Testing Agency and the Doping Control Officers;
- treat all information related to athlete selection and the testing plan as confidential.

C. Minimum testing requirements according to the event level

HYUNDAI IWS 1000

- Minimum of eight (8) tests.

HYUNDAI IWS 500

- Minimum of six (6) tests.

HYUNDAI IWS 250

- Minimum of four (4) tests.

The final number and type of tests, the number of testing days and the required number of chaperones will be determined by the International Testing Agency in coordination with World Archery and communicated to the LOC before the event.

World Archery or the International Testing Agency may increase or modify the testing programme according to the applicable testing plan.

5.7. Media & Broadcasting

A. General provisions

The LOC is responsible for providing the media, photography, and video-production services. Specific requirements apply according to the event level.

Media, photography, live-streaming, and broadcast plans must be coordinated with World Archery and submitted for approval no later than three months before the first day of competition.

All content produced under this section must be delivered through the file-transfer, storage or distribution platform indicated by World Archery.

The LOC must ensure that World Archery receives, free of charge, the necessary rights to use, edit, reproduce, distribute and publish the photographs, video footage, interviews, and other content produced under these requirements across World Archery's editorial, promotional, digital, social-media and broadcast platforms in perpetuity.

B. Specific requirements according to the event level

HYUNDAI IWS 1000

- **News service:** The LOC shall appoint a Media Liaison Officer responsible for:
  - Obtaining quotes from:
    - the leading athletes following the qualification round;
    - the gold medallists following the finals.
  - Delivering the quotes to World Archery within 60 minutes of the conclusion of the relevant competition phase.
- **Photography:** The LOC shall appoint an official photographer responsible for providing:
  - A minimum of 60 edited, rights-cleared, high-resolution photographs must be delivered for each competition day.
  - The photographs must include a representative selection of:
    - competition action;
    - leading athletes;
    - medal matches and ceremonies;
    - venue and spectator atmosphere;
    - branding and sponsor visibility;
    - side activities and sponsor activations, where applicable
  - The photographs must be delivered to World Archery within 60 minutes of the conclusion of each competition day.
- **Video production:**
  - A minimum six-camera broadcast-quality production is required.
  - The production must:
    - be produced in 1080p50 or 1080p60, according to the event location;
    - be clean of live graphics;
    - be clean of live commentary;
    - comply with the applicable World Archery production and delivery requirements.
  - Detailed minimum technical requirements are provided in Appendix 2: Production Specification (6 cameras) .

HYUNDAI IWS 500

- **News service:** The LOC shall appoint a Media Liaison Officer responsible for:
  - Obtaining quotes from:
    - the leading athletes following the qualification round;
    - the gold medallists following the finals.
  - Delivering the quotes to World Archery within 60 minutes of the conclusion of the relevant competition phase.
- **Photography:** The LOC shall appoint an official photographer responsible for providing:
  - A minimum of 60 edited, rights-cleared, high-resolution photographs must be delivered for each competition day.
  - The photographs must include a representative selection of:

- competition action;
- leading athletes;
- medal matches and ceremonies;
- venue and spectator atmosphere;
- branding and sponsor visibility;
- side activities and sponsor activations, where applicable

  - The photographs must be delivered to World Archery within 60 minutes of the conclusion of each competition day.

- **Video production:**

  - A minimum three-camera broadcast-quality production is required.
  - The production must:

    - be produced in 1080p50 or 1080p60, according to the event location;
    - be clean of live graphics;
    - be clean of live commentary;
    - comply with the applicable World Archery production and delivery requirements.

  - Detailed minimum technical requirements are provided in Appendix 1: Production specification (3 cameras).
  - The LOC may provide a six-camera broadcast-quality production instead. In this case, the production must comply with Appendix 2: Production Specification (6 cameras).

HYUNDAI IWS 250

- **News service:** The LOC shall appoint a Media Liaison Officer responsible for:

  - Obtaining quotes from the gold medallists.
  - Delivering the quotes to World Archery within 60 minutes of the conclusion of the relevant competition phase.

- **Photography:** The LOC shall appoint an official photographer responsible for providing:

  - A minimum of 100 edited, rights-cleared, high-resolution photographs must be delivered over the course of the event.
  - The photographs must include a representative selection of:

    - competition action;
    - leading athletes;
    - medal matches and ceremonies;
    - venue and spectator atmosphere;
    - branding and sponsor visibility;
    - side activities and sponsor activations, where applicable

  - The photographs must be delivered to World Archery within 60 minutes of the conclusion of each competition day.

- **Video production:**

  - A minimum three-camera broadcast-quality production is required.
  - The production must:

    - be produced in 1080p50 or 1080p60, according to the event location;
    - be clean of live graphics;

        - be clean of live commentary;
        - comply with the applicable World Archery production and delivery requirements.
    - Detailed minimum technical requirements are provided in Appendix 1: Production specification (3 cameras).

5.8. Sponsorship & Branding

A. Event identity and logo

All Hyundai Indoor World Series events must have an official event name and visual identity.

- **LOC responsibilities:** The LOC is responsible for:
    - defining the official event name and submitting it to World Archery for approval;
    - designing the event logo and submitting it to World Archery for approval;
    - using the approved event name and logo consistently across event communications, venue branding, promotional materials and digital platforms.

For Hyundai IWS 250 events, the development of the event logo by the LOC is optional. Where the LOC does not develop a logo, World Archery may provide an appropriate event identity.

- **Logo requirements and recommendations:**
    - The event logo must:
        - include the official event name;
        - be approved by World Archery before publication or use;
        - not contain copyrighted elements, trademarks or other imagery requiring third-party permission unless the necessary rights have been obtained.
    - The event logo should:
        - be clear and legible at both large and small sizes;
        - work effectively across digital and printed applications;
        - be reproducible in colour and monochrome;
        - avoid unnecessary complexity.
- **Deliverables:** The LOC must provide:
    - an outlined vector version of the logo in AI, EPS or PDF format;
    - a transparent PNG version suitable for digital use.

B. Hyundai Title Sponsorship and Series Identity

Hyundai is the title sponsor of the Hyundai Indoor World Series.

The following principles apply to all events, regardless of event level:

- Each Hyundai Indoor World Series event may retain its own name, logo and visual identity. The event identity complements the Hyundai Indoor World Series identity and does not replace it.
- The official designation Hyundai Indoor World Series must be used whenever the series is referenced.
- The applicable event level designation must be used consistently: Hyundai IWS 1000, Hyundai IWS 500 or Hyundai IWS 250.

- World Archery will provide the official Hyundai Indoor World Series identity, approved artwork, applicable branding guidelines and the relevant event-level mark. The LOC must use and implement the Hyundai Indoor World Series visual identity in accordance with the specifications and examples set out in Appendix 3.
- The LOC must use the applicable Hyundai IWS 1000, Hyundai IWS 500 or Hyundai IWS 250 event-level visual identity in accordance with the specifications set out in Appendix 4.
- Only artwork supplied or expressly approved by World Archery may be used.
- The event logo and the Hyundai Indoor World Series identity may appear together as separate marks, in accordance with the positioning and relative-size guidance provided by World Archery.
- The World Archery logo and the Hyundai Indoor World Series identity must be visible on the qualification and finals fields of play and included in official event publications.
- The LOC must submit all branding layouts and materials incorporating World Archery or Hyundai assets for written approval before production, publication or installation.
- Approved artwork must not be altered, redrawn, recoloured, distorted or combined with other elements except as expressly permitted by the applicable branding guidelines.

C. Branding and activation requirements according to the event level

The following minimum branding and activation requirements apply according to the event level.

HYUNDAI IWS 1000

- **Event logo:** required.
- **Hyundai Indoor World Series identity:** required on:
    - the event website and registration page;
    - schedules and programmes;
    - promotional materials;
    - social-media graphics;
    - official event publications.
- **World Archery logo and event-level mark:** required on:
    - qualification and finals fields of play;
    - official event publications.
- **Qualification field of Play:** required Hyundai visibility must include:
    - perimeter positions;
    - side-of-field positions;
    - spectator stands.
    - venue screens and LED systems, where available.
    - Alternative branding solutions: subject to prior World Archery approval.
- **Finals field of play:** required Hyundai visibility must include:
    - **Hyundai floor logo:**
        - minimum width of three metres;
        - positioned in front of the shooting line;
        - placement, orientation, dimensions and production specifications subject to World Archery approval;
        - produced using suitable non-slip materials;
        - installed so that it does not interfere with the movement of athletes, coaches or officials.

  - **Hyundai branding on coach boxes during finals**.
  - **Hyundai branding on safety wall during finals**.
  - **Additional prominent visibility through:**
    - LED systems, where available;
    - field-of-play perimeter positions;
    - side-of-field positions;
    - spectator stands;
    - venue screens.

- **Audio acknowledgement:** Required. Hyundai must be acknowledged as title sponsor by the announcer or sports-presentation team during the finals and other main competition sessions.
- **Additional branded materials:** where any of the following are produced, Hyundai must receive prominent positioning in accordance with World Archery guidance:
  - mixed-zone backdrop;
  - athlete entrance arch;
  - official event T-shirt.
- **Hospitality**:
  - up to 10 VIP accreditations must be reserved for Hyundai guests;
  - the guest list will be provided no later than one week before the event.
- **Additional activations:**
  - additional branding or activation requirements may apply upon specific request;
  - these requirements must be agreed with World Archery through an event-specific implementation plan;
  - possible activations may include a prominently positioned Hyundai activation area or the integration of Spot or other Hyundai or Boston Dynamics technology.

HYUNDAI IWS 500

- **Event logo:** required.
- **Hyundai Indoor World Series identity:** required on:
  - the event website and registration page;
  - schedules and programmes;
  - promotional materials;
  - social-media graphics;
  - official event publications.
- **World Archery logo and event-level mark:** required on:
  - qualification and finals fields of play;
  - official event publications.
- **Qualification field of Play:** required Hyundai visibility must include:
  - at least two prominent branding positions using field-of-play perimeter or side-of-field positions;
  - visibility on spectator stands, venue screens or LED systems, where available.
  - Alternative branding solutions: subject to prior World Archery approval.
- **Finals field of play:** required Hyundai visibility must include:
  - **Hyundai floor logo:**

        - minimum width of three metres;
        - positioned in front of the shooting line;
        - placement, orientation, dimensions and production specifications subject to World Archery approval;
        - produced using suitable non-slip materials;
        - installed so that it does not interfere with the movement of athletes, coaches or officials.
    - **Hyundai branding on coach boxes during finals**.
    - **Hyundai branding on safety wall during finals**.
    - Additional prominent visibility through venue screens or LED systems, where available.

- **Audio acknowledgement:** Required. Hyundai must be acknowledged as title sponsor by the announcer or sports-presentation team during the finals and other main competition sessions.
- **Additional branded materials:** where any of the following are produced, Hyundai must receive prominent positioning in accordance with World Archery guidance:
    - mixed-zone backdrop;
    - athlete entrance arch;
    - official event T-shirt.
- **Hospitality**:
    - up to 10 VIP accreditations must be reserved for Hyundai guests;
    - the guest list will be provided no later than one week before the event.
- **Additional activations:**
    - World Archery may propose event-specific activation opportunities;
    - any activation must be agreed in advance with the LOC and be proportionate to the venue, available space and operational capacity of the event.

HYUNDAI IWS 250

- **Event logo:** optional for development by the LOC. Where the LOC does not develop an event logo, World Archery may provide an appropriate event identity.
- **Hyundai Indoor World Series identity:** required on:
    - the event website and registration page;
    - schedules and programmes;
    - promotional materials;
    - social-media graphics;
    - official event publications.
- **World Archery logo and event-level mark:** required on:
    - qualification and finals fields of play;
    - official event publications.
- **Qualification field of Play:** required Hyundai visibility must include:
    - at least one prominent Hyundai branding position must be provided using:
        - a field-of-play perimeter position;
        - a side-of-field banner;
        - a safety-wall or backstop position;

        - or another solution approved by World Archery

- **Finals field of play:** required Hyundai visibility must include:
    - **Hyundai floor logo:**
        - minimum width of three metres;
        - positioned in front of the shooting line;
        - placement, orientation, dimensions and production specifications subject to World Archery approval;
        - produced using suitable non-slip materials;
        - installed so that it does not interfere with the movement of athletes, coaches or officials.
    - **Hyundai branding on coach boxes during finals**.
    - **Hyundai branding on safety wall during finals**.
- **Audio acknowledgement:** Required. Hyundai must be acknowledged as title sponsor by the announcer or sports-presentation team during the finals and awards presentation.
- **Additional branded materials:** where any of the following are produced, Hyundai must receive prominent positioning in accordance with World Archery guidance:
    - mixed-zone backdrop;
    - athlete entrance arch;
    - official event T-shirt.
- **Hospitality**:
    - up to 10 VIP accreditations must be reserved for Hyundai guests;
    - the guest list will be provided no later than one week before the event.
- **Additional activations:**
    - World Archery may propose event-specific activation opportunities;
    - any activation must be agreed in advance with the LOC and be proportionate to the venue, available space and operational capacity of the event.

D. World Archery Contribution & Post-Event Reporting

- **World Archery Contribution**

In connection with Hyundai's title sponsorship of the Hyundai Indoor World Series, World Archery will provide a financial contribution to each event according to its event level.

HYUNDAI IWS 1000

- 12,000 CHF

HYUNDAI IWS 500

- 8,000 CHF

HYUNDAI IWS 250

- 4,000 CHF

The contribution is specifically allocated to support the implementation of Hyundai's contractual rights and the applicable branding, hospitality and activation requirements established in this section. It is not an unrestricted contribution to the general organisation of the event.

Payment is conditional upon the satisfactory delivery of the applicable requirements.

- **Post-event reporting**

Following the event, the LOC must submit a post-event implementation report within the deadline communicated by World Archery.

The report must include:

- photographs or videos clearly showing each required branding position on the qualification and finals fields of play;
- screenshots or copies of digital and printed materials using the Hyundai Indoor World Series identity;
- evidence of the required audio acknowledgements, where available;
- confirmation of the hospitality services provided;
- evidence of any agreed activation;
- an explanation and evidence of any alternative branding solution previously approved by World Archery;
- any additional information requested by World Archery.

The evidence submitted must clearly demonstrate that the applicable requirements were implemented in accordance with the approved branding guidelines and layouts.

World Archery will inform the LOC of any identified deficiency and any resulting adjustment to the contribution.

E. Local sponsorship and commercial rights

The LOC may secure local sponsors and commercial partners, provided that these arrangements do not conflict with the commercial rights of World Archery or the rights granted to Hyundai.

World Archery's commercial rights and the rights granted to Hyundai take precedence over any local sponsorship or commercial arrangement.

- **Commercial restrictions**

The following principles apply to all Hyundai Indoor World Series events:

  - Hyundai holds exclusive commercial rights in the automotive and robotics sector.
  - If Hyundai elects not to provide transportation services or vehicles for an event, the LOC may appoint an alternative operational supplier, subject to World Archery's prior written approval, provided that such supplier receives no sponsorship, advertising, promotional, exhibition, hospitality or activation rights and does not undermine Hyundai's title-sponsor visibility.
  - No robotics or automotive brand may receive sponsorship, advertising, promotional, exhibition, hospitality or activation rights in connection with the event.
  - Sponsorship, advertising, promotion or activation related to the following categories is prohibited:
    - alcohol;
    - tobacco products, including electronic cigarettes and related products.
  - Any potential sponsor or commercial partner that may create a category conflict must be submitted to World Archery for approval before any agreement is signed or publicly announced.

- The LOC must support additional Hyundai activations where requested and operationally feasible, subject to prior agreement with World Archery.

- **Sponsorship and activation plan**

The LOC must submit its proposed sponsorship, branding and activation plan to World Archery no later than two months before the event.

The plan must include:

- the complete list of proposed local sponsors and commercial partners;
- the commercial category represented by each sponsor;
- venue and field-of-play branding layouts;
- the proposed positioning of World Archery, Hyundai and local sponsor branding;
- exhibition and activation plans;
- hospitality arrangements;
- digital and promotional applications;
- any venue, technical or operational constraints that may affect implementation.

World Archery will review the plan and identify any commercial conflicts or required modifications.

The LOC must not confirm, produce or install any sponsorship branding or activation that conflicts with World Archery or Hyundai rights or that has not received the required approval.

Any subsequent change to the approved sponsor list, branding layout or activation plan must be submitted to World Archery for approval before implementation.

6. Appendices

The following documents and information complement the corresponding sections of these Regulations and Requirements.

6.1. Appendix 1: Production Specification (3 cameras)

PRODUCTION SPECIFICATION

1 CHAIN (3 CAM)

This document outlines the minimum camera, audio, and facility requirements for an archery broadcast, either on-site (A) or as a remote production (B).

Alternatives are in blue. Options are in grey.

OUTPUTS

Video	A) 1x PGM3 (contribution) **OR** B) 3x ISO + embedded audio for remote
Video standard	High-definition (HD) 1080p50* 16:9 square pixels (1.0) SDR 4:2:0
Audio standard	Stereo (2.0) 48 kHz EBU R128 CH1+2 – International mix
Transmission format	SRT (see specification)
Record	- (remote)
Record standard	-
Signals on-site	A) PGM3 or CAM1/2 ISOs (organiser request) **OR** B) All CAM ISOs
Signals format	SDI/HDMI at camera source or single drop-point

FACILITY

Type	A) Single-chain OB or flypack (4-feed mixer) **OR** B) 1x CAM chain, special CAMs and 4-ch SRT encoder
Cams CCU	1
Cams (special)	2 PTZ
Comms	A) Production intercom **OR** B) Unity (server supplied)
Graphics	- (remote)
Replay	- (optional/remote)
Mics (shotgun)	2 mono
Mics (interview)	-
Commentary	- (remote)

* If 1080p50 is not available, 1080p25 may be agreed. If progressive standards are not available, 1080i50 may be agreed. If PAL standards are not available, 1080p59.94 or 1080p29.97 may be agreed. Interlaced 59.94 is avoided.

CAMERA NARRATIVES

#	Name	Build	Lens	Location	Narrative
1	Target 1	PTZ*	Minimum: 1/1.8" CMOS x10 optical	Up-range of T1. 4m in front of target. Centre-aligned. 50cm max height.	Arrow impacts.
2	Target 2	PTZ*	Minimum: 1/1.8" CMOS x10 optical	Up-range of T2. 4m in front of target. Centre-aligned. 50cm max height.	Arrow impacts.
3	Wide	CCU Dolly	Standard	Down/right-range of shooting position 2. (2m down, 5m right). Head height.	All action. Two-shot as standard with gentle transitions.

4	Beauty	Fixed wide or fisheye	At least 6m behind field of play, centre-field, at least 2.5m height.	Beauty/safe.

* If PTZ cameras for the targets are unavailable, replacement CCU or fixed-image IP that meet the same picture quality may be agreed.

AUDIO NARRATIVES

#	Type	Stand	Location	Narrative
M1	Shotgun	Low (max 40cm)	Centre field, 4.5m from targets up-range.	Arrow impacts.
M2	Shotgun	Low (max 40cm)	Centre field, 4m from archers down-range.	Bow noise and action ambient.

REPLAY CONFIGURATION

Video	High-definition (HD) 1080p50* AVC-Intra 100 (or XDCAM HD 50)
Channels	2
IN/OUT	1/1
Operators	-
Outputs	Server A – single-angle replay (last arrow only)

* Confirmed production standard.

Server	IN/OUT	IN	OUT
A	1/1	CAM3	RED

CAMERA PLATFORMS

Platforms are the responsibility of the event organiser but production staff must confirm provision in advance. Platforms must be flat and levelled for dolly use. Height is comparison to shooting platform.

#	CAM(s)	Size	Height	Note
A	3	4x2m	-20 to 0cm	If flat ground, no dolly no platform. Stability for camera wheels. Height critical for branding angle.

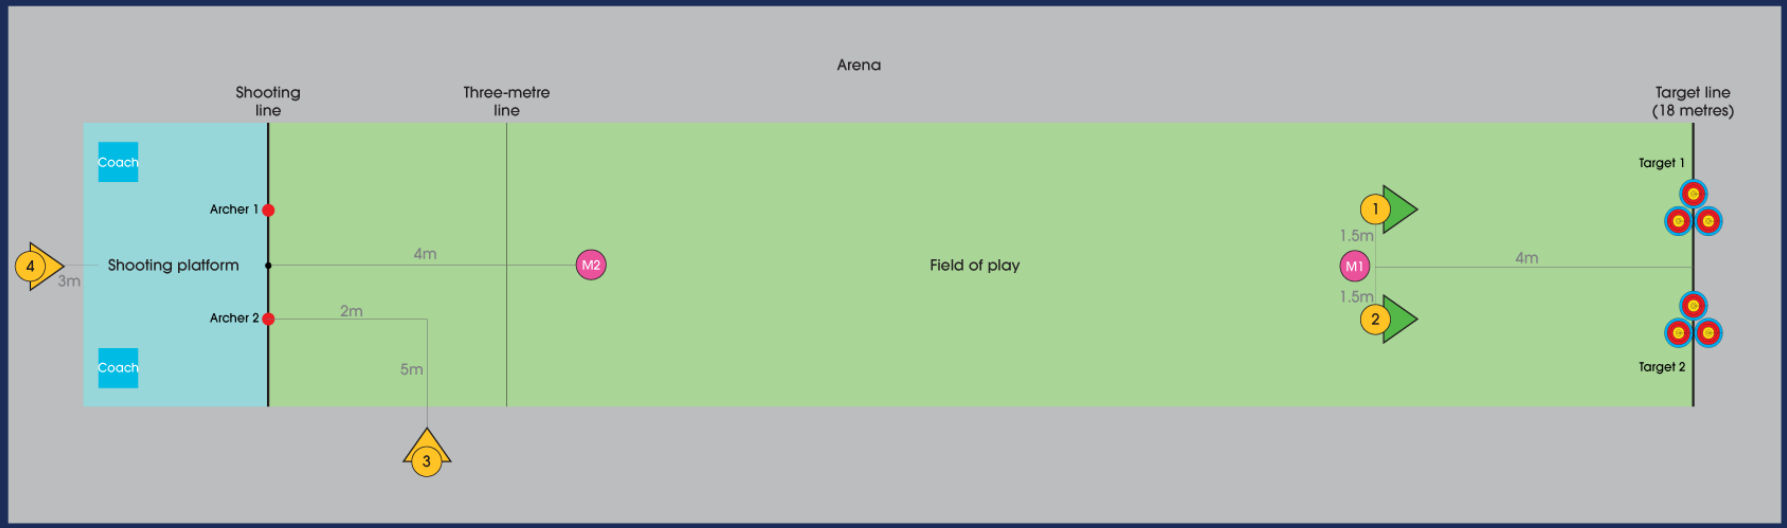

CONTINGENCY

This does not consider transmission or connectivity, only the production facility.

Risk	Scenario	Mitigation	Outcome
Low	Chain failure	None	Broadcast failure
Low	Single PTZ failure	Cross-preset PTZs & switch	Inconsistent angle
Low	Double PTZ failure	None, audio into CAM3	GFX (filled using audio) only score
Low	Audio failure	None	No audio
Medium	Full power failure	None, CAM3 battery BU	Broadcast failure

CAMERA PLAN

2 PTZ
3 CCU standard
4 Fixed wide (optional)

6.2. Appendix 2: Production Specification (6 cameras)

PRODUCTION SPECIFICATION

4 CHAIN (6 CAM)

This document outlines the minimum camera, audio, and facility requirements for an archery broadcast.

Alternatives are in blue. Options are in grey.

OUTPUTS

Distribution	2x PGM3 (contribution)
Video standard	High-definition (HD) 1080p50* 16:9 square pixels (1.0) SDR 4:2:0
Audio standard	Stereo (2.0) 48 kHz EBU R128 CH1+2 – International mix
Transmission format	SRT (see specification)
Record	2x PGM3 (main and back-up)
Record standard	High-definition (HD) 1080p50* Apple ProRes 422 in QuickTime (.mov) container, Rec709
Signals on-site	PGM3 ISO CAM1/2 (at organiser request)
Signals format	SDI at single drop-point

FACILITY

Type	Four-chain OB or flypack with 8-input mixer
Cams CCU	4
Cams (special)	2 PTZ
Comms	Production intercom Unity direct MCR contact
Graphics	- (remote)
Replay	6 channel (XT-2+)
Mics (shotgun)	4 mono
Mics (interview)	1
Commentary	- (remote)

* If 1080p50 is not available, 1080p25 may be agreed. If progressive standards are not available, 1080i50 may be agreed. If PAL standards are not available, 1080p59.94 or 1080p29.97 may be agreed. Interlaced 59.94 is avoided.

CAMERA NARRATIVES

#	Name	Build	Lens	Location	Narrative
1	Target 1	PTZ*	Minimum: 1/1.8" CMOS x10 optical	Up-range of T1. 4m in front of target. Centre-aligned. 50cm max height.	Arrow impacts.
2	Target 2	PTZ*	Minimum: 1/1.8" CMOS x10 optical	Up-range of T2. 4m in front of target. Centre-aligned. 50cm max height.	Arrow impacts.
3	Wide	CCU Dolly	Standard	Down/right-range of shooting position 2. (2m down, 5m right). Head height.	All action. Two-shot as standard with gentle transitions.

4	Reaction	CCU	Standard Mid-long	Down/right-range of shooting position 2. (12m down, 3m right if standard lens (a). 24m down, 6m right if mid (b)). Head height.	Reaction, replay and detail, single shots. If showing shooting must show both hands.
5	Rear	CCU Dolly	Standard	At least 3m behind coach box, centre-field. Head height.	Context and detail, reaction on last arrows.
6a	Beauty	CCU	Wide	High position with downrange view (never backwards).	Context, beauty and fill time.
6b	Crane	CCU	Wide	Rear right of shooting area looking downrange, replaces fixed beauty.	Context, beauty and fill time.

* If PTZ cameras for the targets are unavailable, replacement CCU or fixed-image IP that meet the same picture quality may be agreed.

AUDIO NARRATIVES

#	Type	Stand	Location	Narrative
M1 M2	Shotgun	Low (max 40cm)	In line with target. 4.5m from targets up-range.	Arrow impacts.
M3 M4	Shotgun	Low (max 40cm)	In line with archer, 4m from archers down-range.	Bow noise and action ambient.
M5	Interview	Handheld	CAM 5 (or other IV camera)	Interviews
