

The Executive Committee have been pleased to approve the award of a Bronze Plaque to :

## Mr. SYDNEY WALTER MITCHENER

### ADMINISTRATION

Secretary/Treasurer Auckland Archery Club ... ..	1947/50
Vice-President, Auckland Archery Club	1951/52
President, Auckland District Archery Asso., Inc. ... ..	1952/53
Elected Life Member Auckland Archery Club ... ..	1953
President, Auckland Archery Club ...	1954/60
Council Member, New Zealand Archery Association ... ..	1952/62
President, New Zealand Archery Assoc., Inc. ... ..	1959/62

### ACTIVITIES

During all the years from 1947 to 1962, Mr. S. W. Mitchener has been, and still is, a very keen and active archer. He has been Auckland Club Champion twice and a New Zealand Flight Champion. His scores today are consistently high. He holds that very enviable record of being the only member of the New Zealand Archery Association Inc. to have attended every National Championship and at the present time is a very active Club Coach.

### PRACTICAL

Mr. S. W. Mitchener is a very keen Bowyer, and the workmanship of his bows is very high in standard which, together with his arrow making activities, etc., render his services very keenly sought after. Let it be said at this stage that no one who is in need of help at any time is ever refused, no matter what the personal inconvenience caused.

His donations to our sport, in all forms, are countless as well as the many thousands of unpaid hours of work put into various Committees, etc. Target faces, including Field, are his sole responsibility for the whole of the Dominion. These he produces at a figure everyone knows is just about at bare cost only, and as a result the National Council reaps the benefit from his work.

Sydney Walter Mitchener is, we feel, one of the most outstanding personalities in New Zealand Archery circles, being well-known all over the Dominion for his generosity and his ever willingness to help a fellow archer and for his enthusiasm to support any venture that will in any way further archery. In his present position as Dominion President, the New Zealand Council is ruled with a quiet but firm hand and this has been the means of solving many a dispute amicably. His judgment is sound and he is respected throughout New Zealand for his moderating influence, kindness and fine sense of judgment.

## APPENDIX TO MINUTES of XXth CONGRESS, Part II. See Bulletin No. 18, page 7

### REPORT BY THE TECHNICAL COMMISSION OF THE XXth World Championship in Stockholm 1959

The Technical Commission, composed of Mrs. Inger Frith, England, Mr. Jiri Bastar, Czechoslovakia, and the under-signed, elected at a meeting of the Team Captains on 5th of August, has the following to report:

All the distances were measured as correct. The targets used were measured and found correct (all large targets were composed of 2 pieces and a few were found not to be put accurately together and were discarded.)

The competitors' archery equipment was examined each day before shooting and found correct according to the rules.

The slowness of shooting was observed. Several archers were timed and some warned successfully through their Team Captains.

A big part of the competition was televised and we are satisfied it did not interfere with the shooting.

No protests have been received and the highest standard of sportsmanship was shown by the competitors.

The organization of the tournament was excellent in details.

The Technical Commission recommend that the Congress confirm the results obtained in the XXth World Championship Tournament.

Stockholm, August 10th, 1959

**Tomas Bolle**

### CORRECTIONS TO SCORES
