7. Reason	<p>To reduce the number of arrows shot for the 70m Round for Recurve and the 50M Round for Compound from 72 to 60 arrows.</p> <p>The reduction will reduce the number of arrows shot from 72 to 60 in line with many other World Archery rounds, which will be a benefit for time and consistency throughout World Archery.</p> <p>There are several reasons to make this step:</p> <ul style="list-style-type: none"> - Events can shorter be shortened by one day - Improve the consistency among target events, make them easier to explain to audience outside of archery. - Allows more flexibility in competition schedules <p>For practical implication on World Records: if this motion is approved, the World Records for beforementioned rounds are going to be reset (specific process to be determined and published). The current World Records would become Historical Records.</p>
