## Motion for Law Form

According to World Archery Constitution and Rules, Book 1, Articles [1.7.7](#), [1.7.13](#), [1.7.14](#), Appendix 1, [Article 6.4](#). To be submitted to the World Archery Office [congress@archery.sport](mailto:congress@archery.sport) latest by **20 April 2021**.

5. Interpretations potentially affected	
6. Text of the motion (*)	Text attached below for readability and formatting ease, changes are in <b>bold</b> .
7. Reason	<p>The Barebow class currently doesn't have world championships in target archery.</p> <p>The standardisation of Barebow as a target discipline have been a great success given the circumstances of the Covid epidemic, shown as an example in the solid turnout of participants in the online Indoor Archery World Series.</p> <p>There has been strong enthusiasm worldwide for the inclusion of Barebow for target and there is a strong desire from the barebow community of archers to also crown a world champion in target archery and this motion adds just that.</p> <p>The motion adds World Championship for Barebow analogous to the recurve and compound divisions.</p>

8. Committee feedback:	<p>Target Archery Committee:</p> <p>Inclusion of barebow would raise the participation number so high that it would be impossible to find organisers for target World Archery Championships due to necessary venue size. If this motion is accepted, it would result in setting a participation limit for every category (including for recurve and compound). Or would be leading to an extension of the event programme which would significantly raise the price of participation for all teams.</p> <p>Looking from World Archery perspective, it would also mean extra cost and budget increase which means there will need to be something that World Archery will do less in the future if extra revenue sources not found.</p>

## 3.1.WORLD CHAMPIONSHIPS

### 3.1.1.

World Archery arranges for the organisation of the following Championships:

- World Archery Championships: Recurve, **Barebow** and Compound Divisions;
- World Archery Field Championships (optional for Juniors and Team Event): Barebow, Recurve and Compound Divisions;
- World Archery Youth Championships (Juniors and Cadets): Recurve, **Barebow** and Compound Divisions;
- World Archery Para Championships: Recurve and Compound Divisions;
- World Archery 3D Championships (optional for Team Event): Barebow, Instinctive Bow, Longbow and Compound Divisions;
- Target, Indoor and Field Archery for Masters: **Barebow**, Recurve and Compound Divisions (if possible together with other Masters events).

And for the divisions as defined in their respective chapters:

- World Archery Flight Championships;
- World Archery Ski Championships;
- World Archery Run Championships.

Despite the above provision, a World Championship does not have to be awarded if the Executive Board determines it is not appropriate.

## 7.2.2.1.

Description:

The 122cm, 80cm, 60cm and 40cm faces are divided into five concentric colour zones arranged from the centre outwards as follows: yellow (gold), red, light blue, black and white. Each colour is divided by a thin line into two zones of equal width thus making 10 scoring zones of equal width when measured from the centre of the gold:

- 6.1cm on the 122cm target face;
- 4cm on the 80cm target face;
- 3cm on the 60cm face;
- 2cm on the 40cm face.

The dividing lines shall be entirely within the higher scoring zone in each case. There are no dividing lines between light blue and black, nor between black and white. The line marking the outermost edge of the white shall be made entirely within the scoring zone. The width of the thin dividing line and the outermost line shall not exceed 2mm on the target faces. The centre of the target face shall be indicated by a small "+" (cross). The lines of the cross shall not exceed 1mm in width or 4mm in length. An inner 10 ring, (which is marked as an X on the score cards) of 6.1cm in diameter for the 122cm target face and 4cm in diameter for the 80cm target face, is required to help determine ties in ranking. For indoor compound events the 10 ring is 3cm on the 60cm face and 2cm in diameter for the 40cm face. **For indoor barebow events the 10 ring is 6cm on the 60cm face and 4cm in diameter for the 40cm diameter face.**

- Outdoors the 80cm 6-ring face may be used at 50m, 40m and 30m. The rings have the same dimensions as the 80cm faces, but with the 4 to 1 scoring zones removed. The lowest scoring zone is the light blue 5.
- Indoors triple faces may be used as follows. (For the Indoor Match Round the 40cm triple face shall be used for Recurve and Compound. R- and C- vertical triple faces are mandatory for the World Archery Indoor Championships for Recurve and Compound.). They have the same dimensions as the World Archery 60cm and 40cm faces respectively, but with the 5 to 1 scoring zones removed. The lowest scoring zone is therefore light blue 6.
- Each set consists of three small faces on a white background arranged symmetrically in a triangular pattern with the centres respectively bottom left, at the top, and at the bottom right, or in a vertical row. The centres of the golds shall be approximately 32cm distant from each other on 60cm faces and 22cm distant from each other on 40cm faces. There is a distinction between regular triple faces and Recurve (R) and Compound (C) 40cm triple faces. The 40cm triple face (both triangular and vertical) will differ in the size of the 10 ring: the 40cm-R has a 40mm 10 ring, the 40cm-C has a 20mm 10 ring and the combined triple face has the two 10-rings. **Barebow shall use the 40cm diameter face.**
