At home in Seoul the Korean women archers won the archery events of the Games of the XXIVth Olympiad by achieving the three individual medals as well as the team gold medal.

Editorial

by Francesco Gnecci-Ruscione,
President of the FITA

The close of 1988 after the celebration of the Olympic Games in Seoul marks a point in the history of FITA where to indulge in the re-collection of the achievements and successes of Archery in this last Olympiad would be easy and rewarding.

Our Sport and the Federation that organizes it have grown, have improved their performance and their image throughout the world.

I prefer however to turn my eyes and invite you to turn yours to the new Olympiad ahead. However pleasing to pat ourselves on the back in self congratulation it is much more stimulating to think of new tasks and new developments, to set new goals and devise the means for achieving them.

Some of these new tasks have already been identified and the foundations for our activity have been laid in the period since our last Congress.

I refer in particular to the task of developing Archery from the ground in new countries, from the seed of new and small Member Associations where they exist and to a broader base of age and social groups in all Member Associations.

For this task the tools have been forged in the Development and Technical Assistance Committee and in the Standard bow project.

The task is now to use these tools to their full potential.

The revision of our shooting Rules, begun with the introduction of the Grand FITA Round in Target Archery, will be continued by the coming Congress for the disciplines of Indoor Archery and Field Archery.

Mr. José D. Vallarino Veracierto (above), S.E. Mr Mohamed Zerguini (below) and Mr. Roque Napoléon Muñoz Peña, members of the International Olympic Committee respectively for Uruguay, Algeria and the Dominican Republic, awarding the Olympic medals one after the other, accompanied by the FITA President. Thanks should also go to Mr. Zerguini and to Mr. Fidel Mendoza Carrasquilla, IOC Member for Columbia, who carried out their duties as IOC delegates during the archery competitions to everyone's satisfaction.

The proposed reforms that will be discussed in Lausanne aim at providing more interesting formats of competition as well as introducing gradually into the practice of FITA Archery the users of Compound Bows while safeguarding the development of Recurve Bow Archery and through the Standard bow, the need for low cost equipment.

All this in the firm belief that in the development of a Sport what has and must have first priority is the development of the competitors' skills well before the technical sophistication of their equipment.

This is simple fairness towards all those Archers and Member Associations who cannot afford expensive equipment.

A further task will be the development of the new discipline of Skiarc, a form of Biathlon where the bow replaces the rifle: after a few years of experiments at National and Club scale, competitions are being held this Winter with the new draft of International Rules. This new fascinating possibility of having a Winter Sport activity has been understood already by several Member Associations.

Forward FITA!

The Stoke Mandeville
Games Association

In addition, two National Federations, those of Liechtenstein and of Nepal, now have the status of temporary member. The next FITA Congress, called for the 2 and 9 July 1989 at the time of the XXXVth Open Air Target Archery World Championships in Lausanne (SUI), will decide on the ratification of these affiliations.

General view of the competition.

The archers from Indonesia proved to be among the best. Their second place in the team competition constituted one of the great performances of the Games of the XXIVth Olympiad.

The day of the individual finals, FITA had offered an open air lunch at the archery grounds, at which several members of the IOC and numerous NOC representatives took part. Some of them seemed particularly interested in the possibility of setting up National Archery Associations in their own countries.

Technical delegates, Judges and the Director of shots are worthy of our gratitude. From l. to r.: Klaus-Dietrich Schulz (FRG), director of shots; Sung-Ho Um (KOR), judge; Don Lovo (CAN), technical delegate and member of the Board of Appeal; Dioniso Flores (PHI) and Harold Kremer (USA), judges; Katsumasa Saito (JPN), assistant judge; Knud Pedersen (DEN) Chairman of the Board; Sanguan Kosavinta (THA), judge; Knud Hammer Andresen (DEN), technical delegate and member of the Board of Appeals; Claude Olsen (FRA) and John Womersley (AUS), judges.

WORLD RECORDS

Two female FITA simple distance world records were set during the 1988 Olympic competitions, both by the Olympic champion Soo-Nyung Kim (KOR);

— the first over 50 m with 336 points, improving by one point the previous record set up by Yanzhina Tsyrenzhapova (URS) in 1985;

— the second in a FITA simple (144 arrows) with 1352 points pulverised the former record which belonged to her with 1338 points since last January.

For the development of field archery

The FITA Commission for Field Archery is happy to announce that Mr Nikolaj Babkin, the well-known Swedish coach, went to the Soviet Union to direct a seminar on field archery.

Nikolaj Babkin

This seminar, which brought together 30 participants, took place in the town of the Orel for six days during last May. A great amount of interest was fed and the result of this first experiment was very encouraging.

Hommage to Frederick G. Usher

Frederick G. Usher, long-time FITA judge, died peacefully in his sleep on Sunday 3 July 1988. He will be missed by his friends and his memory will stay alive as one of the perfect gentlemen of the FITA and international archery. He was delegate of the Canadian Federation to FITA from 1971 to 1979. The illness which was to overtake him forced him to resign. As a collector, he has amassed an extensive library on archery. A short while ago, FITA bought this precious collection of nearly one hundred volumes from him. In agreement with the IOC, this collection has been placed in the Olympic library in Lausanne. Under the name of «Fred Usher FITA Collection», it will be available to all who wait to consult it. The address of the Olympic Library is: 18 avenue Ruchnonnet, 1008 Lausanne (Switzerland), Tel: (41-21) 20.93.31.

The President of FITA confirmed to the Gaiss Council

The President and the Secretary General of FITA took part at the 22nd Congress and General Assembly of the General Association of International Sports Federations (GAISF) at Lausanne (SUI) from 3 to 5 November 1988. At the end of deliberations Dr. Un Yong Kim President of GAISF remarked once on the links uniting the family of sport, and particular the IOC and the IFs grouped under the GAISF banner were evident to one and all.

Dr. Un Yong Kim was re-elected by acclamation to the Presidency of GAISF for a second term of two years. The FITA President. Francesco Gnechi-Ruscione, was confirmed as the representative of the Summer Olympic International Federations to the Council.

Your registration form for the 35th World Championships in Lausanne

We would like to remind you that the olympic city of Lausanne, headquarters of the International Olympic Committee, will have the privilege of playing host to the 35th FITA World Championships in Archery, from the 4th to 10th July 1989.

For practical reasons, the Organizing Committee has already sent all the national archery Federations their invitations to participate in this competition. The Federations not yet having announced their participation to the Committee may do so; the utmost will be done to fulfill all requests.

Nonetheless, each FITA national member Federation will receive the preliminary registration form within the time delay specified by article 408 b) of the FITA Regulations.
