

INTERPRETATIONS

WORLD ARCHERY CONSTITUTION AND RULES

Book 4, Article 22.2.3

The French Archery Federation has requested an interpretation as to whether the scope shown below is allowed in field and 3D archery competitions in the compound division.

The Constitution and Rules Committee (“C&R”) finds the question presented to be within the terms of reference of the Technical Committee after consultation with the Field Archery Committee.

C&R has determined that the following interpretation is not contrary to the existing rules or Congress decisions.

Response from the Technical Committee:

It is the majority opinion of the Technical Committee that the compound scope shown below is legal in all compound division disciplines provided that this scope design may not be used in the unmarked portion of Field Archery competitions due to the multiple possibilities of using various scope components for ranging. These components include the adjustable sunshade knobs and the different hole sizes placed in the lower part of the scope.

World Archery Technical Committee, 19 March 2013

Approved by the World Archery C&R Committee, 20 March 2013
